220. **Impacts on Future College Finances (FC 6)**

A report on the impacts on College finances of possible future events, such as a reduction in tuition fees, Brexit and cost increases for USS pensions, had been circulated and was received.

The Bursar had advised Finance Committee that the report was based on incomplete information and that a worst-case approach had been taken, so that the final outcomes would hopefully be better.

a. **Tuition Fees**

The Government’s post-18 education review is looking at tuition fees and there has been speculation in the media about what might happen. The College report was based on these conjectures and a very high-level estimate of how the proposed changes would filter through the University’s JRAM and it was noted that greater clarity would only be provided once the Education Review had been published.

b. **Brexit**

The report had looked at only some aspects of a ‘No Deal’ Brexit, including the possible impact of ‘No Deal’ on food costs, as all the effects of Brexit were as yet largely unknowable. Governing Body noted that a register of Brexit risks had been drawn up by Risk Committee (GB 252, 06.02.19).

c. **USS Pensions**

It was noted that the USS Trustees had recently launched a new consultation and that College was likely to have a slightly lower level of contributions than previously estimated, but still an increase on the 2017 valuation.
